When the SPEED has no limits. Vauhti FC SPEED and RC SPEED products have superb characteristics. They minimize the surface energy of the ski base, making it super-hydrophobic and dirt-repelling. At the same time, they are excellent in cold conditions to reduce dry friction. The speed, glide sensitivity, and durability of these glide waxes are excellent in all weather conditions. With versatile application methods every skier will benefit, even the lightweight skiers.

Same as previous FC-products, but with purified raw materials to comply with ECHA regulations on fluorocarbon substances, PFOA < 25 ppb.
